WORK EXPERIENCE

Technical specialist IBM

07/2021 - 12/2023

Bangalore

- **Developed and maintained** an internal incident tracking tool using **React, Redux, and modern JavaScript**, improving response time for incident resolution
- **Implemented reusable UI components** using **React functional components and hooks**, ensuring scalability and maintainability across multiple modules.
- **Integrated REST APIs** for real-time data updates, reducing latency and improving system reliability for incident tracking.
- **Optimized application performance** by applying best practices in **state management and component rendering**, resulting in a **15% faster load time**.
- **Collaborated with cross-functional teams** (Backend, QA, product managers) to deliver end-to-end solutions within tight deadlines.
- **Conducted code reviews and implemented best practices** for clean code, testing, and version control using Git.
- **Worked with Agile methodology**, participating in sprint planning, daily stand-ups, and retrospectives to ensure timely delivery of features.

EDUCATION

Post Graduation Program in Cloud Computing on AWS

Great Learning

02/2020 - 09/2020

Bangalore, India

- Cloud Foundations
- Cloud computing on AWS
- Containers, VPC
- Cloud security and Migration

Bachelors in Computer Application - Computer Science

M S Ramaiah College of Arts, Science & Commerce

06/2016 - 11/2019

Bangalore, Karnataka CGPA: 6.7

- Specialized in Computer Applications, Operating Systems, Data Structures, DBMS.
- C, C++, JavaScript, JAVA, Software Engineering, Networking and Cryptography basics.

SKILLS

React.js HTML CSS Fast Learner

Tailwind CSS NPM Git JavaScript

Problem Solving Attention to detail

Team Collaboration Redux Ant Design Vite

MUI Responsive Design

ACHIEVEMENTS

Performance

Improved UI performance by 30% through Redux optimization and code-splitting strategies, resulting in faster load times for critical dashboards.

Productivity

Boosted team productivity by 15% by implementing reusable React components and standardized UI patterns across the application.

PROJECTS

e-Commerce Dashboard

- **Skills:** React, React Router, State, Ant Design.
- **Features:** Admin dashboard, Charts, Products list, Orders, etc.

Developer Insight App

- **Skills:** React, MUI, Context API
- **Features:** Global State, Effects, Timers, Material UI

Personal Portfolio Website

- **Skills:** HTML, CSS, React
- **Features:** About, Projects, Contact form, CSS Animation

To-Do List App

- **Skills:** React (state, props), JS array methods
- **Features:** Add/edit/delete tasks, filter by status
- **Bonus:** Local Storage for data persistence

Contact Form with Validation

- **Skills:** React forms, controlled components
- **Features:** Name/email/Password inputs, form validation
